EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Avery Goldstein on September 21, 2007.

The application has been amended as follows:

Claim 1, line 4 of the claim, delete the words "independent of" and replace with the words --- wherein said administering does not generate ----.

Claim 11, line 4 of the claim, delete the words "independent of" and replace with the words --- wherein said administering does not generate ----.

Claim 18, line 3 of the claim, delete the words "independent of" and replace with the words --- wherein said administering does not generate ----.

Claim 26, line 4 of the claim, delete the words "independent of" and replace with the words --- wherein said administering does not generate ----.

The following is an examiner's statement of reasons for allowance:

After a careful search of issued patents and relevant commercial databases, no references were found that would either anticipate or make obvious applicant's claimed invention. It was known at the time of applicant's invention that (4-[[[4-chlorophenyl](5-fluoro-2-hydroxyphenyl)-methylene]amino)butanamide) or Progabide metabolizes to three active metabolites, 4-chlorophenyl-5-fluoro-2 hydroxyphenylmethanone, gamma aminobutyramide and GABA after administration. Thus the administration of Progabide would necessarily and inherently create the metabolite gamma-aminobutyramide, however, the instant claims are exclusive of 4-chlorophenyl-5-fluoro-2-hydroxyphenylmethanone, and thus, are neither anticipated by nor obvious over the prior art. Accordingly this application is allowed to issue.

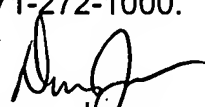

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
